Relevant Experience

Mozaic Payments, US, Remote — Senior Angular Developer

April 2024 - May 2025

- Built a payment platform with Angular 17 and NX, integrating Tipalti and Stripe for seamless user onboarding and payments.
- Developed an intuitive dashboard to monitor, receive, and split earnings.
- Implemented contract-based revenue sharing so users can add YouTube videos and automatically divide their ad revenue.

SmartDocs, US, Remote — Senior Angular Developer

August 2023 - March 2024

- Created dynamic web applications for SmartDocs Auto-pilot Bot, utilizing Angular 15 and SCSS for development and styling.
- Provide leadership within the engineering department through close collaboration, knowledge shares, and mentorship.
- Designed and developed the Admin Panel's user interface and dashboard to monitor and manage bots utilized for invoice downloads across various channels.

BidBetty, Upwork — Lead Frontend Developer

October 2022 - June 2023

- Autonomously restructuring legacy code into an organized structure using interceptors, authentication guards, and router guards for role-based enhancement.
- Applied Angular best practices to implement features and suggested solutions for enhanced user experiences.
- Revamped auction UI and readied the project for production deployment.

Teebeds Technologies — Lead Frontend Engineer

June 2019 - October 2022

- Architected and executed a scalable frontend for Teebeds Property Management system, employing Angular 10, Material UI, SCSS, and Angular SSR.
- Developed a bespoke Google-style calendar, streamlining guest check-in and checkout. Achieved a 70% speed boost over the old system, heightening user satisfaction.
- Crafted Hotel Booking Engine with integrated payments, ensuring seamless user bookings. Implemented using Next.js, SCSS, and React.

Ideationz — Junior Angular Developer

January 2017 - April 2019

- Commenced my journey as an AngularJS developer, acquiring proficiency in technologies spanning from AngularJS to Angular 5.
- Individually crafted and constructed CRMs for major organizations such as Harmon-Kardon and Sukam India.

Education

Maharaja Surajmal Institute of Technology

Bachelor of Technology in Computer Science and informations

Skills

Programming Languages

Typescript, Javascript, Html, Css, Sass, Javascript(ES6)

Libraries & Frameworks

AngularJs, Angular, React, Next.js, MUI, PrimeNg, PrimeReact, NGRX

Tools & Platforms

Git, Github, Vercel, Ubuntu, Wordpress, GA4

Selected Projects

Mozaic Payments(Payment for creators)

Mozaic Payments is a tool for creators that automates revenue collection and splits payments among collaborators according to customizable share ratios. It lets creators focus on their craft instead of finance management.

Hotel Booking Engine

Web-based booking engine for hotels to enhance accommodation sales. Integrated Razorpay and Stripe as payment gateways for automated advance payments and service fee collection.

Property management System

Designed a Hospitality Management software streamlining hotel operations. Created a unified login system allowing front desk managers to easily adjust live rates and availability on various OTAs.

CRM for Harmon Kardon (A Samsung Company)

Built a CRM platform for Harman Kardon's Indian service centers managing 100k+ JBL complaints. Utilized Angular and Material UI, cut service time by 30%, and boosted satisfaction..

Interests

Mountaineering, Rock Climbing, Running, Web accessibility
